INSTALLATION OF CONSTRUCTION BARRIER FOR INTERSTATE 10 WIDENING IN REDLANDS WILL REQUIRE NIGHT LANE CLOSURES DECEMBER 19-22

Following this week's shoulder rehabilitation work on Interstate 10, crews will be placing protective construction barrier (K-rail) next to the freeway median between Ford and Orange Streets in Redlands. This work will require temporary lane closures at night, December 19-22. Lane closures will occur as follows:

- Westbound – One lane at 8 p.m. and two lanes from 10 p.m. to 4 a.m.
- Eastbound – One lane at 9 p.m. and two lanes from 11 p.m. to 5 a.m.

During the placement of the construction barrier, on and off-ramps along the freeway will be closed intermittently to allow construction to progress past those areas. Once the K-rail is in place, traffic will be shifted to the newly paved shoulder lanes while crews begin working next to the freeway median. During the four-night closure, crews also will relocate trees from the median to other locations.

Please follow posted signs and drive carefully through the construction area. For more project information, call the Interstate 10 helpline at (909) 889-8611 ext 102 or visit the San Bernardino Associated Governments website at www.sanbag.ca.gov.

SANBAG appreciates your patience during this freeway widening project.
